

Lay Responder Training First Aid and CPR Certification

Lay Responder Training provides training and certification in First Aid, CPR, Blood Borne Pathogens (BBP), and the use of an Automatic External Defibrillator (AED). With additional training in Wilderness First Aid as well as Healthcare Professional Care training. Our instructors are professional and experienced facilitators and we use the most recent CPR Guidelines and First Aid training techniques to help students retain the important lifesaving skills longer. We bring your training in-house to control costs and flexibility in scheduling. It's surprisingly easy and inexpensive to get started with us.

Our Services Include:

- **2 Year certification** (upon successful completion) in:
 - Standard First
 - Basic CPR
 - AED
 - Basic Life Support (BLS) for the Health Care Provider (HCP)
 - Professional Rescuer (PRO-RES)
 - Instructor Training
- **1 Year certification certificate** (upon successful completion) for Blood Borne Pathogens (BBP)

We also offer training and education for **Emergency Preparation and Preparedness** for all conditions and levels of education from the Elementary School age to the Professional Rescuer/First Responders. We work with organizations to enhance emergency preparedness by sharing best practices and developing industry-wide guidelines. Because we place great value on having trained and capable emergency responders, we conduct various training events and exercises each year using lessons learned and best practices from key exercises that are shared within our internal emergency response community to further enhance our capabilities.

We also work with organizations to broaden their awareness in Security Assessment and being prepared in a world that is every changing and unpredictable. We all must be more aware and of our everyday activities in and around our businesses. We are experienced with working with organizations increasing their awareness through preparedness.
